

*******RABIES ALERT –MEADOWLAKES*******

Meadowlakes received confirmation today (3/11/11) of a rabid skunk that was recently found on the 100 block of Turkey Run. Due to the confirmation of rabies, all residents are being advised to take the following precautions:

- If you have a dog or cat as a pet, make sure the rabies vaccination is current.
- If you think your dog or cat may have been in contact with a skunk, bat, fox, or raccoon, consider a rabies booster; contact your vet. Be cautious of pets that are acting strangely.
- Be cautious of skunks, bats, fox, or raccoons that are acting strangely, particularly if such are active in daytime. If you observe such animal behavior, or see a suspect dead animal, contact the Meadowlakes Animal Control Officer. Animal Control Officer contact information is listed below.
- Advise your children to avoid unfamiliar animals or any animal that is acting strangely.
